# MonitorMed AI

Non-Intrusive Performance Monitoring for FDA-Approved Medical AI

## The Challenge

**950+** FDA-approved AI medical devices with no performance monitoring

- Can't modify validated models
- Performance degradation unknown
- No traditional MLOps possible

## Our Solution: AI model monitoring

- 92% accurate uncertainty estimation
- Zero modification to FDA models
- 23% reduction in false positives

## Target Market

**8,000+** Radiology practices in US

**950+** FDA-approved AI devices
